

SENATE BILL 2366
By Springer

AN ACT to amend Tennessee Code Annotated, Title 69, Chapter 3,
relative to water quality control.

WHEREAS, the general assembly finds that maintenance of creeks and streams
traversing and bordering agricultural forestry lands within the state is essential to good soil
conservation and to the preservation of crops and timber and the protection of public and private
bridges, roads, homes, schools, and businesses; now, therefore,

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1. Tennessee Code Annotated, Section 69-3-120(g), is amended by
redesignating the existing language thereof as subdivision (1) and adding thereto the
following sentence:

An agricultural or forest activity shall specifically include the use of the most
practical equipment to remove downed trees, debris, gravel and sandbars from
creeks, streams and ditches, excluding rivers, that traverse or border any
agricultural or forestry lands and any activity designed to return such creeks and
streams to their original channels when appropriate.

SECTION 2. Tennessee Code Annotated, Section 63-3-120(g), is further
amended by adding the following new subdivision:

(2) The legislative bodies of the several counties shall establish boards of control
to oversee and regulate any agricultural or forestry lands maintenance activities

900000000

90000000

010077

01007759

proposed to be performed in such creeks, streams and ditches, excluding rivers, with their geographical boundaries. Such boards of control shall consist of three (3) members appointed by the county executive for a term of four (4) years. The members shall be residents of the county and shall own forestry or agricultural lands therein.

SECTION 3. This act shall take effect upon becoming a law, the public welfare requiring it.
